***A. Zinell: “Operational readiness and growth plan allow us to continue our efforts to increase passengers’ traffic”***

***21,2% passenger traffic increase in Kos***

On the occasion of the earthquake at Kos, Alexander Zinell, Fraport Greece CEO, on Monday 24<sup>th</sup> July, visited Kos airport to congratulate and thank all the employees of the airport stressing:

“I would like to thank and congratulate all the employees. They have done their best in such a difficult situation and have taken the necessary actions ensuring passengers’ safety and maintaining the operational level of the airport at a maximum. Our operational readiness and development plan allow us to continue our efforts to increase passengers’ traffic, improve services and achieve tourism growth of the destinations. Kos airport has already recorded a 21,2% increase comparing to July 2016 and all scheduled flights to Kos are taking place normally”.
